AND YET COMPLETELY UNFINISHED, IN MY HANDS.

WHAT IF AMERIKA WAS ONLY WRITTEN FOR 32-BIT POWER PC?

CAN AN UNFINISHED PROGRAM BE RECONSTRUCTED??

CAN I WRITE A PROGRAM AND GO, "AH, WELL, YOU GET THE GIST OF IT."

IF THE TRIAL WAS WRITTEN FOR 32-BIT POWER PC, MAX BROD WOULDN'T HAVE TO BURN THEM! HE WOULD JUST BE LIKE, "HOW DO I EVEN GET THIS THING OFF THE HARD DRIVE?"
